

How to Print COVID-19 Vaccination Records in Your MySaskHealthRecord

All COVID-19 vaccination events received at a public health office or pharmacy in Saskatchewan will be available in MySaskHealthRecord once they have been entered into the provincial health information system, Panorama. To print a PDF report, you can use the 'Export' feature in your MySaskHealthRecord account:

Step 1: Log in to your MySaskHealthRecord account and go to your 'Account' settings located in the top right-hand corner. Select "Files and Reports".

Step 2: In the Export information section, select the report criteria (date range and type) and 'Save' to generate the report.
