

1. New User Webpage Design

- Left-hand icon navigation** (previously displayed across the top of the page).
- Home page notification/bulletin tiles** (x3).
- 'Add New' button** at the bottom-right corner of the pages where users can manually enter information.
- 'Show More' feature** allows users to continuously display their results.
- 'Account' section modified** using current best practice and trends in webpage design. Account owner will always be displayed across the top right corner with any shared or dependant access displayed in the drop down. ****Please note: the last user viewed will become the default display upon the record owner's next login.**

The screenshot shows the MySaskHealthRecord Home page. On the left is a dark navigation sidebar with icons for Home, Personal Dashboard, Medical Record, Personal Health Summary, Measurements, Scheduling, and Advance Care Directive. A red circle 'a' highlights the 'Advance Care Directive' icon. The main content area has a green header with 'Home', 'Need Help?', 'Welcome, Record Owner', and 'HM' profile. Below the header are three notification tiles: COVID-19 isolation, COVID-19 alert app, and COVID-19 information. A red circle 'b' highlights the 'Need Help?' link. Below the notifications are four large icons: Clinical Visit History, Lab Test Results, Medical Imaging Reports, and Immunization History. A red circle 'e' highlights the 'HM' profile icon. Below these are sections for 'Recently Added Data' (a table of recent entries), 'Email Notifications for Provincial data', and 'Account Contacts'. A red circle 'd' highlights the 'Show More' button in the 'Recently Added Data' table. On the right, a 'Shared Access Record' dropdown menu is visible with options like Preferences, Files & Reports, and My Profile. A 'Warning' box is also present, advising users to log out of every session.

2. Advanced Care Directive

- New icon** located on the left-hand navigation allows users to upload their advanced care directives/living will documents to their account. These documents will not be sent anywhere (i.e. to their physician) and is meant to act as an additional place to store their previously completed directives.

3. Laboratory Results

- New 'Search by Test Name Result' option** located within the Laboratory Results icon.

4. Report Enhancements

- "Source" column added to all available provincial data reports.
- Clinical Visit report now available.
- Immunization report now available.
