

Saskatchewan Immunization Manual Amendments July 2020

Instructions: Please remove and discard the corresponding pages in each chapter section as applicable and insert the amended pages as noted below in each corresponding chapter section dated July 2020.

Chapter 5 – Immunization Schedules

- P. 11 Section 2.1 Minimum intervals for specific vaccine series
 - Men-C-ACYW-135 vaccine parameters updated to 6 weeks to 6 months for 4 dose series, and 7 months to 11 months for 3 dose series.
- Appendix 5.2: AHA/SHA/FNJ added to second eligibility parameter to match criteria in Chapter 7 for healthcare workers.
- Appendix 5.5: Statement added: **This calendar does not support leap years even though Feb. 29 is noted.** Nurses may consult their own calendar calculators for children born on February 29th.

Chapter 10 – Biological Products

- KamRAB™ added to TOC third page
- New statements added to Gardasil 9 second indication regarding males:
 - Males born in 2005 who did not **start** a series in Grade 6 or 8 are ineligible for the series after leaving Grade 8. HPV does not forecast for them.
 - Up to and including 26 years old...added to male and female indications.
- Pneu-P-23
 - Residents of group homes removed as an indication.
- KamRAB™ added as new Rablg product added.
- Updated product monographs: VARIVAX® III
