Saskatchewan	Name of Activity: Routine and Urgent COVID-19 Vaccine Requests – Via Panorama Inventory Module				
	Role Performing Activity: SHA/ISC/NITHA authorized staff				
	Location: COVID-19 Immunization Manual		Department: SHA, ISC, NITHA, RRPL		
WORK STANDARD	Document Owner: MoH/RRPL		Work Standard originated: MoH		
	Date Prepared: 2022-02-14	Last Revis 202409-	_	Date Approved: 2022-03-24	

Summary: This work standard explains how to order COVID-19 vaccines within the regular routine vaccine ordering and delivery schedule and how to order COVID-19 vaccines on an urgent basis in **exceptional circumstances**. For urgent requests, the Roy Romanow Provincial Laboratory (RRPL) vaccine depot must be notified by telephone. The urgent COVID-19 vaccine request must then be completed by the requester through Panorama.

IMPORTANT NOTE: In addition to the requirements outlined in this work standard, **COVID-19 vaccine inventory must also continue to be tracked** as outlined in the <u>COVID-19 Vaccine Inventory Tracking and Reporting</u> work standard found in the COVID-19 Immunization Manual:

https://w	rww.ehealthsask.ca/services/Manuals	/Pages/COVID-19.aspx				
Task Sequence	Tasks					
1.	 The requester completes the required and mandatory fields in the Panorama Inventory Module. It is very important that the number of <u>doses</u> be ordered, and <u>not</u> the number of <u>vials</u>. 					
	Vaccine name	Doses/ vial in Panorama				
	Moderna Spikevax® (0.1mg/ml; Roya	5				
	Pfizer Comirnaty® 12+ (0.3ml [30mcg	6				
	 The vaccine will be shipped according to manufacturer recommendations at the lowest temperature possible. See Table 2 below. If the receiving site prefers a different transport temperature, the requester must document the temperature range the vaccine is to be shipped at (e.g., 2-8°C, -XX°C to -YY°C) in the comments section (see red circle in picture below). Table 2 					
	Vaccine	Quantity to Ship	Transport Temperature			
	Moderna Spikevax® (0.1mg/ml; Royal Blue Cap/Coral Blue Label)	Full box (increments of 50 doses) OR Partial box	-50 to -15°C			
	Pfizer Comirnaty® 12+ (30	Full box (increments of 60 doses)	-90 to -60 °C			
	mcg/0.3ml; Grey cap/Label)	Partial box	+2 to +8 °C

3. For urgent requests in <u>exceptional circumstances</u> only:

The requester will telephone one of the RRPL vaccine depot staff indicating that an **urgent** COVID-19 vaccine requisition for COVID-19 vaccine 'brand/formulation' and number of doses will be submitted in Panorama.

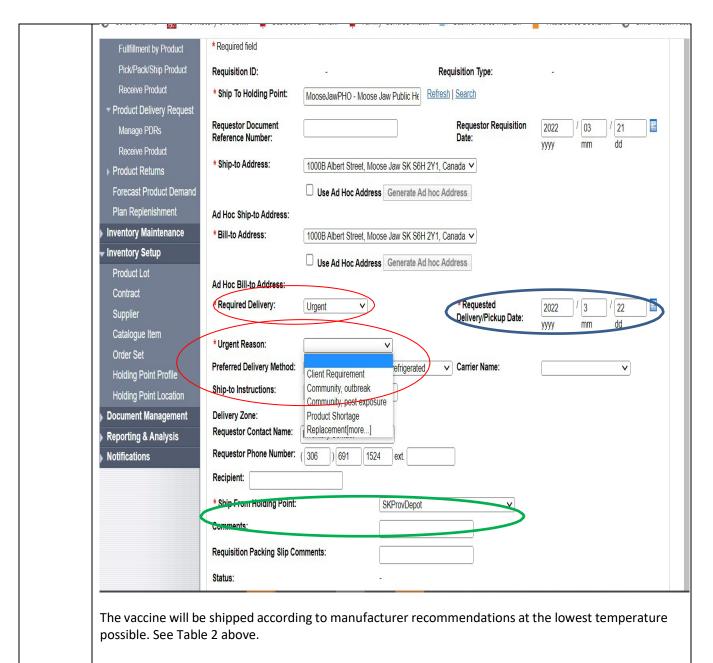

RRPL contact numbers:

Storesperson/Purchasing Clerk 306-787-0415 or 306-787-7638

Supervisor, Materials Management & Vaccine Distribution 306-787-7104

<u>Note</u>: Toensure urgent requests are addressed in the appropriate timeframe, the requester(s) is asked to not leave a voicemail but to **ensure they speak directly with one of the vaccine depot staff.**

The requester identifies the **Required Delivery** as **Urgent** (see red circle below) and enters the **Requested Delivery/Pickup Date** (see blue circle below). The requestor must identify the **Urgent Reason** (see red circle below) from the drop down window. If the Ship-to Address for the COVID-19 vaccine is different from the ordering site, please identify this in the **Comments** field (see green circle below).

If the receiving site prefers a different transport temperature, the requester must document the temperature range the vaccine is to be shipped at (e.g., 2-8°C, -XX°C to -YY°C) in the comments section (see red circle in picture below).
