Internal: information that is generally available to health stakeholders and approved non-health stakeholders

Purpose of Document

This document is intended to be a quick reference guide to help end users and non SHA Information Technology resources with the installation/upgrade of Radiology and Enterprise clients for Intellispace PACS 4.7.17. This document should be used in conjunction with the above referenced Philips documentation.

Note: A complete uninstallation of the previously installed version of PACS client is a requirement prior to proceeding with the installation of the new version.

Please note this only applies if you *installed* the Enterprise or Radiology client of PACS on your computer. If you access PACS client via the website, the new upgrade will automatically be installed, by the Philips package manager, when you go to the website: <https://pacs.ehealthsask.ca/>.

This document is intended for use in conjunction with the Philips Documentation **IntelliSpace Radiology 4.7 Client Installation and Upgrade Guide** In case of discrepancies, please follow the Philips documentation.

NOTE: If you encounter problems or issues while using this reference sheet or Philips documentation, please call the eHealth Saskatchewan Service Desk at 1-888-316-7446.

Uninstalling PACS 4.4.533.x Instructions

Please refer to Page 12 of **IntelliSpace Radiology 4.7 Client Installation and Upgrade Guide** Ensure you have logged out of PACS and your browser is closed.

1. Click on the Start Menu.
2. Go to Windows System -> Control Panel -> Programs and Features (Programs>Uninstall a program).
3. Uninstall each of the following. (If installed)
 - a. IntelliSpace PACS Enterprise 4.4.533.xx
 - b. IntelliSpace PACS Radiology 4.4.533.xx
 - c. Philips Medical Systems IntelliSpace PACS Clinical Applications
4. Navigate to C:\Program Files (x86)\Philips\
 - a. Delete the “IntelliSpace PACS *Enterprise*” folder (if it exists)
 - b. Delete the “IntelliSpace PACS *Radiology*” folder (if it exists)
5. Navigate to C:\Users\%username%\AppData\Local\PPM\
 - a. Delete all files and folders within the PPM folder
6. Reboot the computer.

Installing IntelliSpace PACS Enterprise Client

Please refer to Page 25,26 of **IntelliSpace Radiology 4.7 Client Installation and Upgrade Guide**

Installing the Standalone Client:

1. If you are going through these steps remotely, **please ensure you are first connected to VPN.**
2. Turn **off** Pop Up Blockers
3. Go to <https://pacs.ehealthsask.ca/installers>
4. Click the link for “**IntelliSpace Radiology – Enterprise (.exe)**”
5. Click “Run” when the window pops up at the bottom:
- Or, you can save the executable file to your local computer and double-click when ready.

PHILIPS

Do you want to run or save **IntelliSpacePACSEntriseSetup.exe** (317 MB) from uat.pacs.ehealthsask.ca?

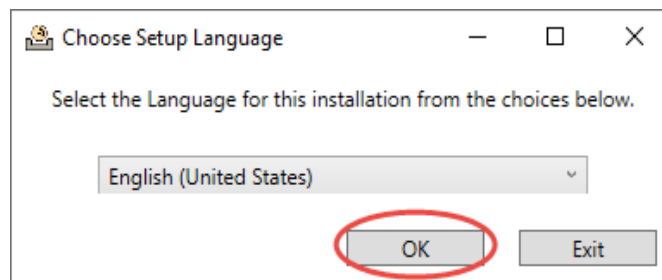

This type of file could harm your computer.

Run Save Cancel

6. Click **“Yes”** on the **“User Account Control”** window, if asked

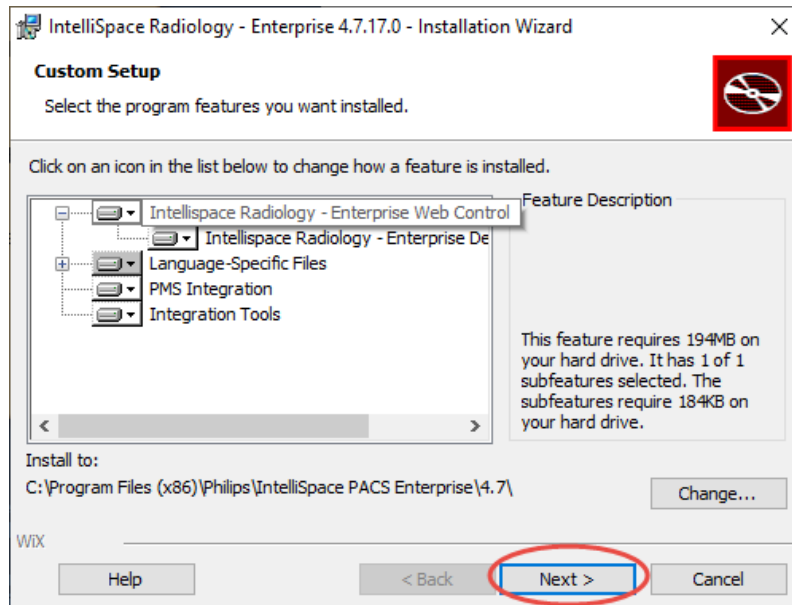

7. When prompted ensure **English(United States)** is selected, then click **“OK”**

8. The IntelliSpace PACS Enterprise **4.7.17.0 Installation Wizard** window will pop up. Click **“Next”**

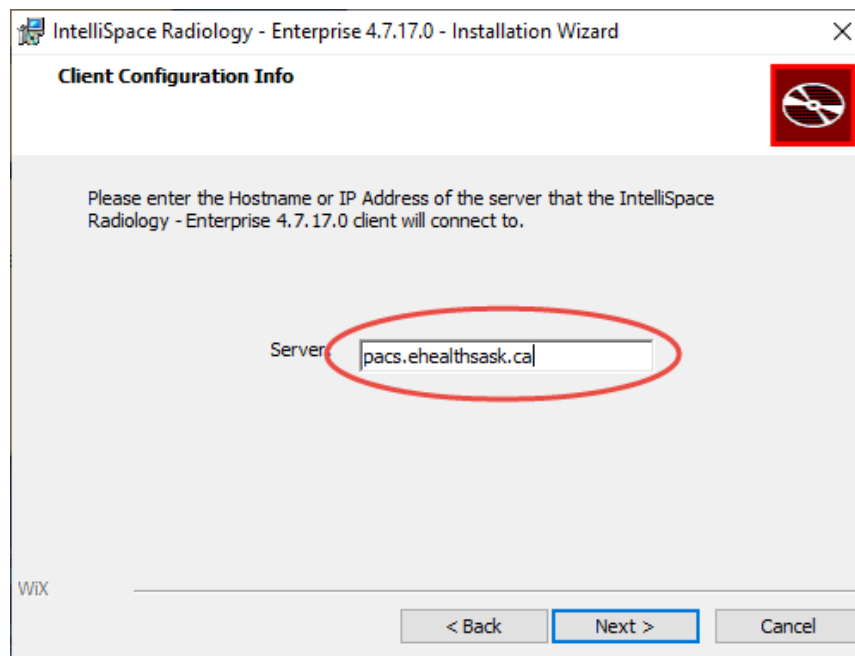

9. Click “Next” on the Custom Setup screen

10. Client Configuration screen requires that Server = **pac.s.ehealthsask.ca**. Then click NEXT

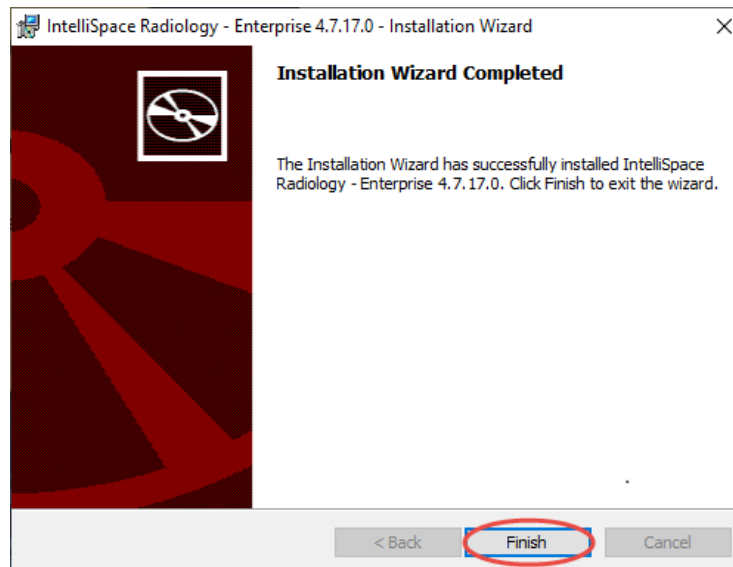

NOTE: If the server prompt does not come up the new version of PACS will **default** to the Server used by the prior version of PACS.

11. A status window will display:

12. When successful, you will get the Install Wizard Completed screen. Click **“Finish”**

The new version of PACS successfully installed and the application icon will appear on your desktop.

Launching the PACS Enterprise Application

1. To launch the application, double click the IntelliSpace PACS Enterprise or Radiology icon on the desktop or start menu:

2. The Philips IntelliSpace Log On Window will appear and display version **4.7**.

A dark blue window with a white Philips logo at the top center. Below the logo, there is a white text box containing the text: "The Information in PACS is confidential personal health information. By accessing this system you agree to be legally bound to the PACS Services/Access Policy". Below this, the text "IntelliSpace Radiology - Enterprise" is displayed in white. Underneath, "Release 4.7" is written in white and enclosed in a red rectangular box. Below that, a small lock icon is followed by the text "The current connection is secure." and "Logon". There are four white input fields: "User Name", "Password", "Log on to" (with a dropdown arrow), and "Location" (with a dropdown arrow). The "Log on to" field contains "eHealthSask" and the "Location" field contains "Main Location". Below the input fields is a white "Log in" button. At the bottom of the window, there is a small white text box containing a copyright notice: "Copyrights and all other proprietary rights in any software and related documentation ('Software') made available to you rest exclusively with Philips or its licensors. No title or ownership in the Software is conferred to you. Use of the Software is subject to the end user license conditions as are available on request."

3. Fill out the logon information the same way you have done in the past
 - a. User Name = same as before
 - b. Password= same as before
 - c. Log On To = domain where your log on credentials were created
 - d. Logon Mode = Password
 - e. Location = Main Location

Installing IntelliSpace PACS Radiology Client

Please refer to Page 25,26 of **IntelliSpace Radiology 4.7 Client Installation and Upgrade Guide**

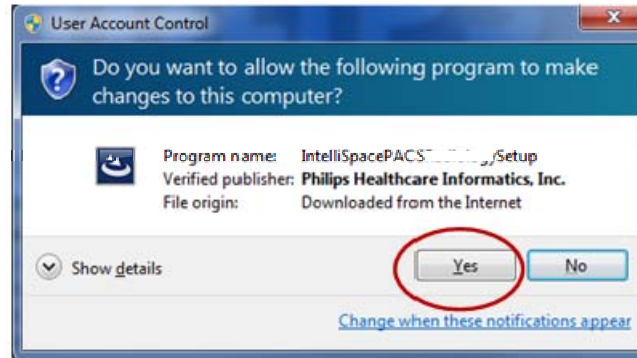

Installing the Standalone Client:

13. If you are going through these steps remotely, **please ensure you are first connected to VPN.**
14. Turn **off** Pop Up Blockers
15. Go to <https://pacs.ehealthsask.ca/installers>
16. Click the link for “IntelliSpace Radiology (.exe)”
NOTE ** “IntelliSpace Radiology (.exe)” is for Radiologist use only**
17. Click “Run” when the window pops up at the bottom:
- Or, you can save the executable file to your local computer and double-click when ready.

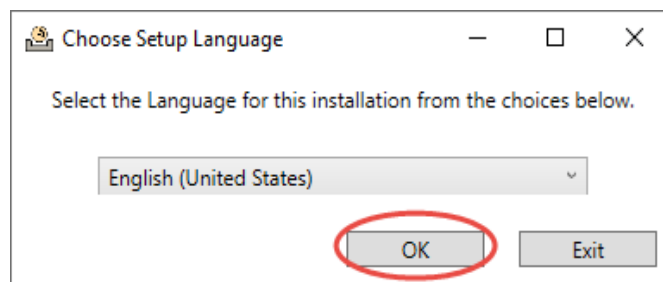

The image shows a screenshot of the Philips IntelliSpace Radiology Installers webpage. The page features the Philips logo at the top, followed by the heading "IntelliSpace Radiology Installers". Below this, there are three main sections: "Standalone Installers", "MSI Installation Packages", and "Package Manager Download". Each section contains links to various installation files and brief descriptions of their intended use. A red box highlights the link for "IntelliSpace Radiology (.exe)" under the Standalone Installers section. At the bottom of the webpage, there is a copyright notice for 2018 Koninklijke Philips Electronics N.V. and a disclaimer regarding reproduction and use of the software.

Below the webpage content, a Windows file dialog box is shown. The dialog box asks: "Do you want to run or save IntelliSpacePACSEntrpriseSetup.exe (317 MB) from uat.pacs.ehealthsask.ca?". A warning icon and text state: "This type of file could harm your computer." The "Run" button is highlighted with a red box.

18. Click **“Yes”** on the **“User Account Control”** window, if asked

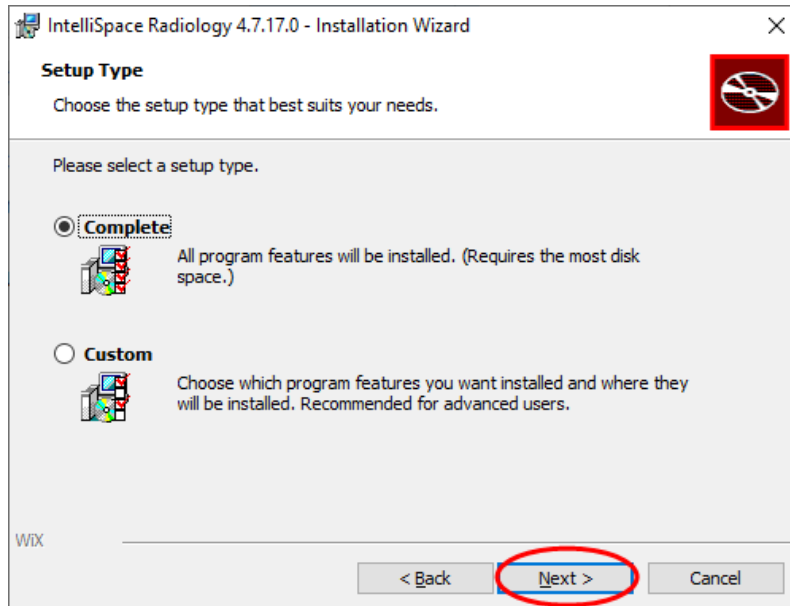

19. When prompted ensure **English(United States)** is selected, then click **“OK”**

20. The IntelliSpace PACS Radiology 4.7.17.0 **Installation Wizard** window will pop up. Click **“Next”**

21. Ensure Setup type is Complete and click "Next

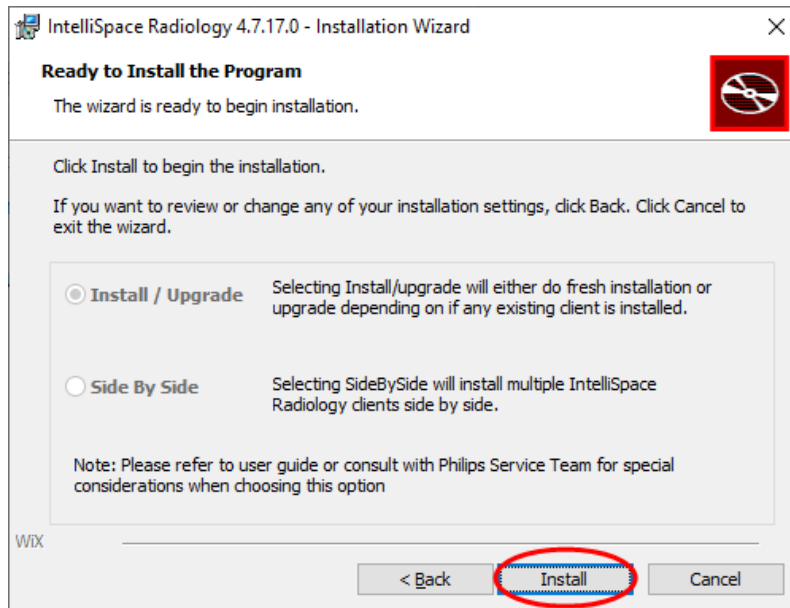

22. Client Configuration screen requires that Server = **pacs.ehealthsask.ca**. Then click NEXT

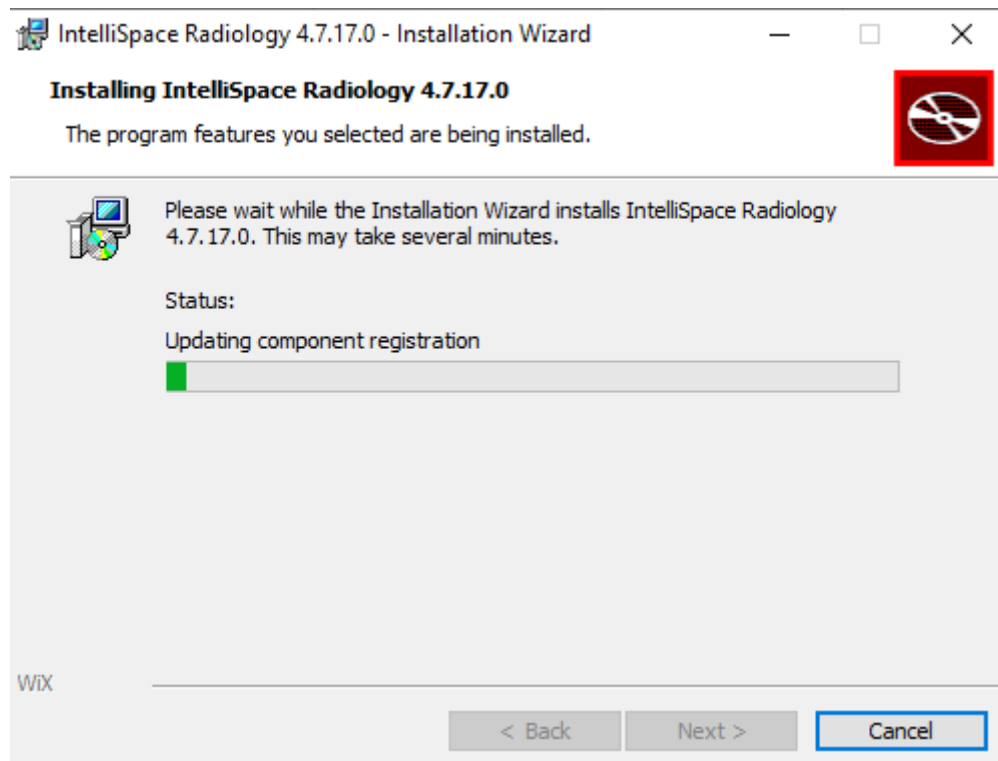

NOTE: If the server prompt does not come up the new version of PACS will **default** to the Server used by the prior version of PACS.

23. Ensure Install/Upgrade is selected and choose "Install".

24. A status window will display:

25. When successful, you will get the Install Wizard Completed screen. Click **“Finish”**

The new version of PACS successfully installed and the application icon will appear on your desktop.

Launching the PACS Radiology Application

4. To launch the application, double click the IntelliSpace PACS Enterprise or Radiology icon on the desktop or start menu:

5. The Philips IntelliSpace Log On Window will appear and display version **4.7**.

 A screenshot of the Philips IntelliSpace Radiology - Enterprise Release 4.7 Logon window. The window has a dark blue background. At the top center is the Philips logo. Below it, a white text box contains the disclaimer: "The Information in PACS is confidential personal health information. By accessing this system you agree to be legally bound to the PACS Services/Access Policy". The title "IntelliSpace Radiology - Enterprise" is centered, with "Release 4.7" highlighted in a red box below it. A lock icon and the text "The current connection is secure." are visible. The "Logon" section includes:

- User Name:
- Password:
- Log on to:
- Logon Mode:
- Location:

 A "Log in" button is at the bottom. At the very bottom, small white text reads: "Copyrights and all other proprietary rights in any software and related documentation ('Software') made available to you rest exclusively with Philips or its licensors. No title or ownership in the Software is conferred to you. Use of the Software is subject to the end user license conditions as are available on request."

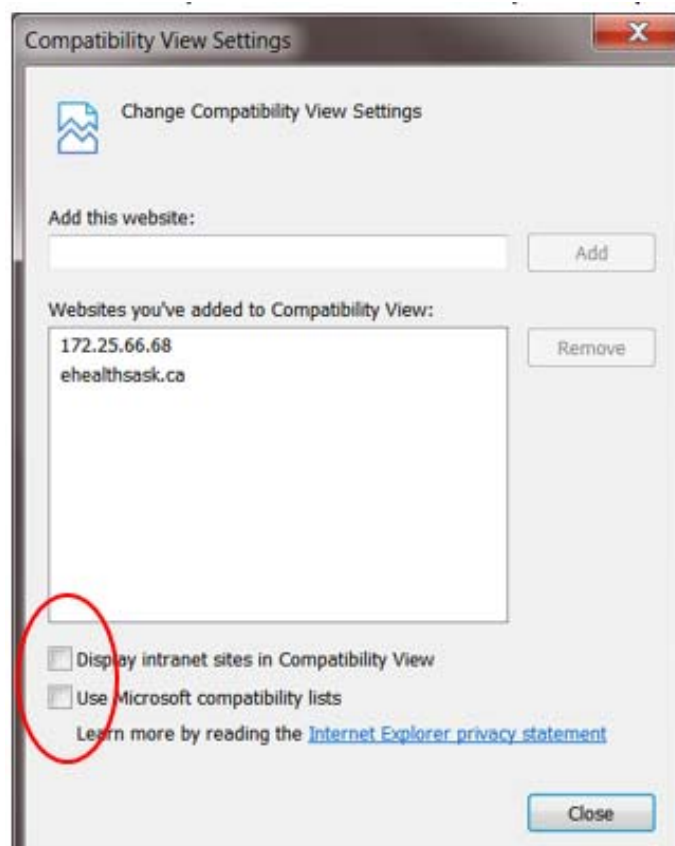

6. Fill out the logon information the same way you have done in the past
 - a. User Name = same as before
 - b. Password= same as before
 - c. Log On To = domain where your log on credentials were created
 - d. Logon Mode = Password
 - e. Location = Main Location

Accessing IntelliSpace PACS Enterprise Client via Internet Explorer

Please refer to Page 37 of **IntelliSpace Radiology 4.7 Client Installation and Upgrade Guide**

Internet Explorer (IE) 10 or 11, Edge (Internet Explorer Mode) are the supported Web Browsers.

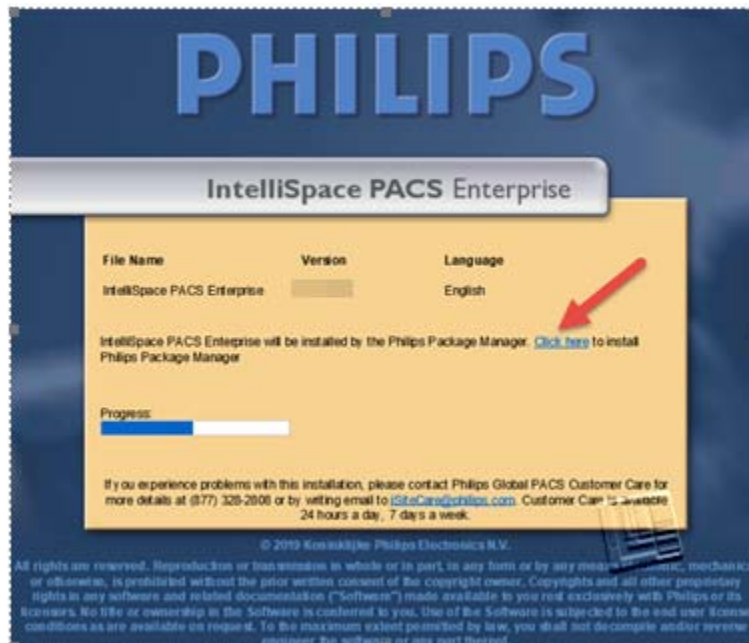

1. Compatibility view should **not** be enabled.
2. From the IE “Tools” navigate to the Compatibility View Settings
3. Internet Explorer > Tools > Compatibility View
4. Ensure that the below options are **unchecked**.

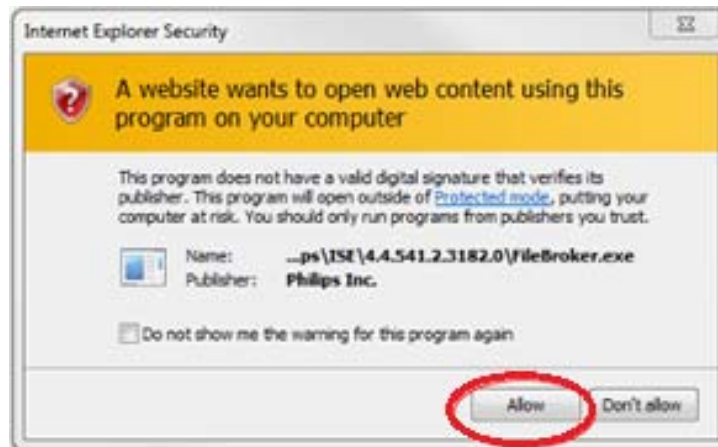

5. To access PACS, ensure you are connected to CNET directly or via VPN.
6. Open up Internet Explorer and browse to <https://pacs.ehealthsask.ca>

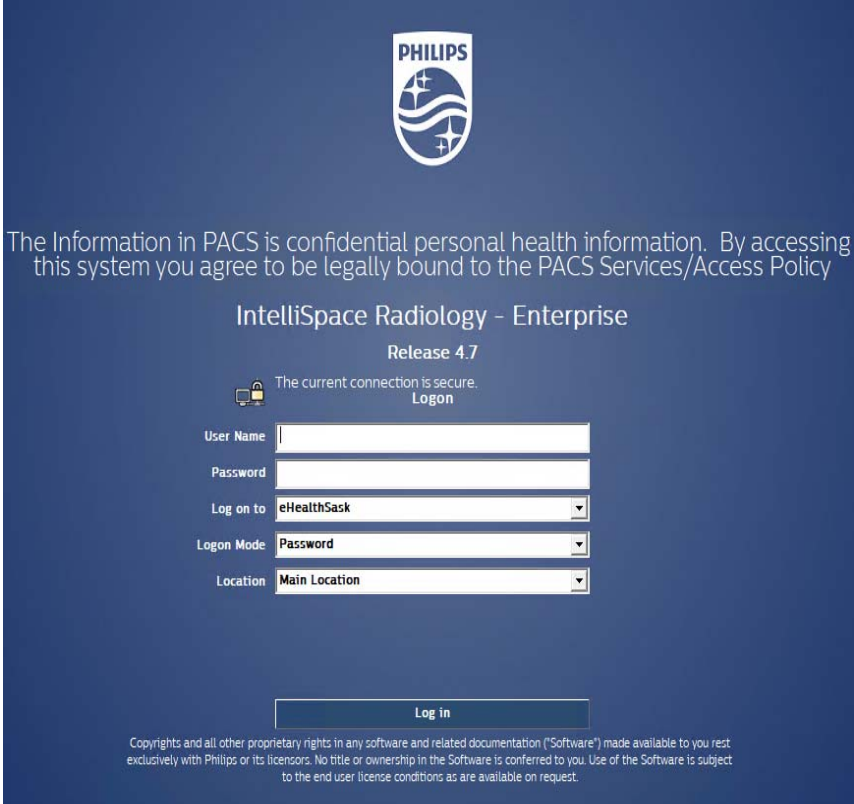

- On a new installation the Philips Package Manager will launch and display **PACS 4.7.17** with a progress bar to show the application is installing. If install does not automatically begin then click on the “**Click here**” link, depending on your browser connection. Please be patient.

- Depending on your security permission on the computer, you may have to “allow” the installation:

9. After the install is complete. The PACS Logon page will appear as below with PACS version displaying as **Release 4.7**

The Information in PACS is confidential personal health information. By accessing this system you agree to be legally bound to the PACS Services/Access Policy

IntelliSpace Radiology - Enterprise
Release 4.7

The current connection is secure.
