Bulletin 0015 - Panorama Immunization Module – Quick Reference

## Where do I find the SIMS "Reason Not Immunized" in Panorama?

The "**Reason Not Immunized**" from a SIMS immunization event is being migrated to a Client Warning and/or a Special Consideration in the Panorama Immunization Module.

- All "reasons" will have a client warning and a special consideration with the exception of *Consent Form Not Returned* and *Other*, which will only have a client warning.

- Some "reasons" will have a **Note** in SIMS:
    - If a note is present in SIMS for a "reason" that migrated to a special consideration the information in the note from SIMS will be added to the comments section in the Special Consideration screen in Panorama.
    - If a note is present in SIMS for "Consent Form Not Returned" or "Other" reasons the notes from SIMS will be added to the Client Warning in Panorama.
