Panorama Bulletin

Bulletin #0041: Client Creation

eHealth Saskatchewan   **July 22, 2015**   **Version 1**

Issue

It has come to the attention of the Panorama Support Team that Panorama Clients are being created without demographics required by Imms Forecaster and Reporting functionality.

Management

To ensure accurate Forecasts and Reporting counts, the following fields are required (at a minimum) during creation: **Full Name**, **Date of Birth**, and **Gender**

Additionally, the Client's **Health Region** should be set to the responsible Regional Health Authority, and not the Public Health Office.
