## **Bulletin #050: Migration of SIMS Notes**

eHealth Saskatchewan

Apr 18, 2016

Version 1

### **Issue Description**

The Panorama Support Team has been made aware of an issue where a limited number of SIMS Non Immunization Event Notes and SIMS Immunization Refusal Notes were cut off when they were originally converted to Panorama Client Warnings in February 2015.

### **Issue Resolution**

<u>SIMS Non Immunization Event Notes</u> and <u>SIMS Immunization Refusal Notes</u> have been migrated from Panorama Client Warnings to the Panorama Clinical Notes screen in their entirety. Clients with Clinical Notes created on their record will now appear with a yellow exclamation flag in the Client Header.

Marnings A Notes
