

## Panorama Immunization Module Policies

TOPIC:	<b>Special Considerations</b>		
APPROVED BY:	<b>Saskatchewan Ministry of Health</b>	DATE APPROVED:	<b>January 14, 2015</b>

### **POLICY:**

Special considerations will be documented in Panorama as contraindications, precautions, and exemptions.

### **PURPOSE:**

To ensure that Panorama users are consistent in their documentation of *special considerations* such as contraindications, precautions, and exemptions. Contraindications and exemptions can impact the vaccine forecaster and all special considerations provide information pertinent for future immunizations.

### **PROCEDURE:**

Documentation of special considerations for the client are added (and updated) in the Add Special Consideration screen (in Record & Update Imms).

Ensure that the special consideration is applied for each applicable **Immunizing Agent** (antigen). Complete all **mandatory** fields and also complete the **Recommended Action** field.
